

AMERICA'S BIOECONOMY GROWS OPPORTUNITIES

Thanks to the support of USDA's BioPreferred® program and the ingenuity of American manufacturers, the U.S. bioeconomy is thriving — supporting millions of jobs, driving economic growth, and expanding opportunities for biobased products from America's farms and forests.*

ECONOMIC IMPACT

COMMUNITY BENEFITS

USDA's one-stop web application process makes it simple for manufacturers to apply and track their USDA Certified Biobased Product label applications. Learn more at biopreferred.gov and follow us on Twitter [@biopreferred](https://twitter.com/biopreferred) for industry updates.
